

ART EDUCATION CLASS IX (2026-27)

The NCF-SE 2023 broadly classifies the Arts into Visual and Performing Arts (Music, Theatre, and Dance & Movement). It involves innovative and imaginative ways of expression in different forms using a variety of materials and media.

NEP 2020 helps students to utilize various aspects and forms of art and culture as the basis for learning concepts across subjects. A part of the thrust on experiential learning, art-integrated education, embedded in classroom transactions, not only creates joyful learning but also helps in imbibing the Indian ethos through the knowledge of Indian art and culture.

Art in School Education addresses the Goals and Competencies for every student to find diverse ways of persisting and solving problems. We not only create an artwork, but also enjoy the experience of viewing and responding to many forms of cultural expression. When they create artwork together and work collaboratively, they recognize one another's strengths and develop deeper connections with the world around them. Such a process nurtures empathy, appreciation, cooperation, and trust, all of which are fundamental for developing social and human values, such as ahimsa, love, compassion, friendship, and peaceful co-existence. As a common language, the Arts bring people together and lead them to develop acceptance, understanding, and mutual respect

Art classes involve three important processes—making artwork, thinking creatively in the Arts, and appreciating all forms of artistic expression down the ages. This immersive experience of producing art improves cognition, leaving a positive and long-lasting impact on the development of aesthetic sensibilities, expression, imagination, observation, crafting skills, creativity, and students' overall confidence in their own abilities.

Aims

Through Art students should be able to connect with their culture and appreciate the diversity of artistic expressions. For an effective Art Education programme, schools must aim to achieve:

- a. Joy in exploring and creating artwork:** This would mean gaining a variety of aesthetic experiences and deriving joy from all forms of art.
- b. Imagination and creativity:** Acquiring and applying creative thinking and artistic capacities through experimentation and sustained practice in the Arts is at the heart of Art Education.
- c. Empathy and sensitivity:** Meaningful experience in the Arts has great potential to nurture empathy and sensitivity towards the expressions of others.
- d. Understanding of connections with other disciplines:** The Arts teaches

appreciation of beauty in nature and the observation of details and patterns. This approach to the understanding of disciplines makes for aesthetic experiences in themselves.

- e. **Sense of belonging:** Through artistic engagement, students will find connections to their own culture and traditions, as well as learn an appreciation for India's multicultural diversity and knowledge of contemporary artists and art practices.
- f. **Development of Aesthetic Sensibilities:** Students should be able to describe the characteristics of things they find beautiful, do subjective interpretations, assess the aesthetic qualities of artwork based on the commonly accepted criteria in the Arts and expand their 'tastes' by participating in art processes.

Approach to learning different Arts Forms for Practice and Theory

Arts Education emphasizes the process over the product. The NCF-SE 2023 mentions three processes that are integral to the Arts:

- **Thinking Processes** refer to a wide range of cognitive activities in the Arts. It includes generating ideas, understanding the elements of art, inquiring into artistic processes, interpreting artwork, and connecting the Arts with other knowledge and experiences.
- **Making Processes** relate to the execution and production of work, utilizing the active engagement of mind and body to express ideas and emotions. This involves using a variety of creative tools, instruments, materials and techniques.
- **Appreciation Processes** include exposure to and awareness of diverse art forms and cultural practices. This process involves responding to artworks, discussing, describing and assessing aesthetic experiences; considering their social and historical contexts, and developing multiple perspectives along with respect for diverse opinions.

Visual Arts
• Visual Arts learning builds upon the student's knowledge of the elements of art and the principles of design. Through regular practice in creating compositions and other artworks, fundamental concepts, such as perspective, proportion, balance, focus, rhythm and harmony guide students in effectively expressing their ideas and expressions. • An introduction to art history and basic theories, such as Śaḍāṅga described in ancient treatises like the Citrasūtra, helps students to appreciate the aesthetically rich and continuous heritage of the Indian art traditions. • Exploration and experimentation with materials, tools and techniques also create opportunities for interdisciplinary linkages.

Music
• Music education includes singing diverse compositions across classical, folk, tribal and contemporary genres, enabling students to experience the richness of India's musical traditions. Students will explore ragas, rhythm patterns and instruments, study the historical evolution of music and its theoretical treatises, and understand how Indian music has gained global recognition through renowned musicians.
Theatre
• Theatre builds on the basic aspects of voice, body language and expression, along with costume, make-up and other backstage elements learned in earlier stages. • In practice, students explore the basics of direction, lighting and sound, and how these elements shape a scene's emotion and meaning. They experiment with abstract representation, where a single object or gesture can symbolise a broader idea. Through theoretical study, students will learn how theatre developed from the pre-Nāṭyaśāstra period to modern theatre, which uses design, technology, and realistic storytelling techniques. This integration of practice and theory enables learners to think both as artists and storytellers - understanding how every elements, such as light, sound and movement, can express an idea and create an experience that connects people across time.
Dance and Movement
• Dance and movement will be learnt through the application of concepts rooted in texts. Teachers are encouraged to ground instruction in regional dance practices, while also introducing students to dance forms from other regions. Various dance practices, major and other traditions will be learnt with emphasis on stylised body movements, emotional expression and the creative use of hand gestures. They are also introduced to analyse and journal the historical development of dance, taking cultural and geographical contexts into account. The interrelation between dance and other art forms is emphasised, and students are encouraged to integrate interdisciplinary concepts in their creative explorations.

Themes/ Concepts and Learning Outcomes (Suggestive Instructional Hours)

History of Arts (Common Chapter for all four Arts forms)

(30 hours)

Chapter Outlines/Key Concepts	Learning Outcomes
Common History chapter bringing together all art forms • Time period covers the prehistoric period to the late 11th century CE. • Tangible and intangible cultural heritage • Storytelling traditions from across India • Chronology of important milestones across all art forms • Ancient texts and literary sources that have guided Indian Arts Traditions • Geographical, socio-cultural and political influences on art practices • Art from around the world that shows parallel development and cross- cultural influences • Continuity of historical art traditions and connections with present times	• Students will be able to: Interact with peers, teachers, family members, and artists in their community to know more about Arts practices CG-1, C-1.2. • Create artwork, i.e., inspired by the ideas and processes from art history CG-1, C-1.2. • Identify and discuss the evolution of materials, processes & techniques used in various art forms CG- 3, C- 3.2. • Trace the historical development of visual arts, theatre, music and dance with examples CG-4, C- 4.1. • Identify the continuing ideas, practices, and art traditions mentioned in ancient Indian texts and treatises. Theatre

Chapter Outlines/Key Concepts	Learning Outcomes
Create your theatre company, Vision logo team, Research in theatre (5 hours/ 6 periods)	
1.1 Creating a theatre company: - Team building and collaboration - Vision of the Theatre Team: Creative thinking behind the name and logo, and defining purpose and goals 1.2 Research in Theatre - Individual or Group Research Activity: Students choose a topic	Students will be able to: - Discuss the ideas and processes that interest them in Dramatic Arts. CG-1, C-1.1. - Explore the potential of theatre for a social purpose. Demonstrates empathy and sensitivity in interacting with people. CG-1, C-1.2 - Interact with peers, teachers, family

that interests them in the Dramatic Arts. They engage with concepts and tools related to researching Dramatic Arts in society. • Conduct interviews with theatre personnel. • Conduct surveys and field Visits • Visits art galleries and watch different performances (such as melas, activity or cultural centres, auditoriums, museums, etc. • Studies selected literature and apply it to the research topic.	members and artists in their community to know more about the scope of the Dramatic Arts, e.g., enquire about access and locations of auditoriums, performers, types of plays, theatre groups, festivals, etc. CG- 1, C-1.2
Lighting and sound, Basic concepts of design, Lights and sound equipment, Background music and sound effects (3.20 hours/ 4 periods)	
2.1 Introduction to importance of light and sound in theatre • Lighting equipment, such as Par-can, profile, fresnal lens, patch panel, dimmer, etc. Sound equipment like microphones, amplifiers and speakers • Their functional roles in performance environments. Basic concepts of design: Explore how lighting and sound (stage lighting, background music and sound effects) influence mood, meaning, and emotional tone within a scene.	Students will be able to: • Identify differences in approaches and techniques of scene work at each step of the process, e.g., explain how the arrangement of various elements convey different meanings and emotions. CG-2, C-2.1. • Experiment with themes and ways of presentation during large collaborative projects targeted towards creating drama. CG-2, C-2.2 • Understand and applies concepts of light, lenses, electricity and sound in theatre. Able to blend the science concepts to enhance the creative output on stage. CG-3, C-3.1
Direction and Acting, Basic techniques and responsibilities of a director, Schools of acting, Facilitating workshops (6 hours/ 7 periods)	
3.1 Introduction to styles, techniques, and values related to direction: • Visualising a scene and its techniques • Styles and approaches to direction • Schools of acting in Indian and Western traditions • Facilitating workshops	Students will be able to: • Experiment with themes and projects targeted towards large collaborative projects targeted towards creating drama. CG-2, C-2.1 • Experiment with rehearsal techniques and run-throughs. CG-2, C-2.1 • Explore one's own abilities in

Leadership, collaboration, and taking responsibility in the production process	performance as an individual and in groups. CG-2, C-2.2 - Demonstrate familiarity with the proper use and maintenance of costumes, props, stage equipment used for drama CG-3, C-3.1 - Experiment with theatre games, skill building activities and rehearsal techniques CG-3, C-3.1
Stage aesthetics Colours and Symbolism in theatre (2.30 hours/ 3 periods)	
4.1 Symbolism: Exploring various icons, indices and symbols through scene-building activities. 4.2 Colours and meaning building: Activities include colour theories in Natyashastra, the impact of colours on stage (sets, props, and costumes and their effects) 4.3 Art appreciation: Read different literatures beyond drama, poetry and short stories. Observe various types of drama from classical, folk, modern to build opinions and share thoughts. 4.4 Connect with other art forms: Visit art galleries, museums, auditoriums to watch different performances, interview artists from different disciplines, group discussion, etc., to enhance perspective and approach towards art.	Students will be able to: - Understand abstract representation on stage. Builds simple metaphors and symbol for story concepts. CG-4, C-4.1 - Consider multiple viewpoints and interpretations while responding to diverse forms of Indian dramatic arts and cultures presents non-judgemental and contextual views with an awareness of geography and cultural diversity. CG-3, C-3.2 - Identify differences in approaches and techniques of scene work at each step of process e.g., explains how the arrangement of various elements convey different meanings and emotions. CG-2, C-2.1

Dance and Movement

Chapter Outlines/Key Concepts	Learning Outcomes
Components of Dance (4 hours/ 5 periods)	
1.1 Body Geometry: Concepts of saushthava, rekha and roopa 1.2 Revisiting rhythms and tempos 1.3 Introduction to the four abhinayas 1.4 Dance in Cinema Activity: Watch	Students will be able to: Describe and demonstrate body alignment (saushtava) while performing dance movements. CG-3, C-3.1

a dance sequence from a film and write an entry it 1.5 Dance Project Activity: Watch a dance performance, and write an entry analyzing your observations of the performance	• Apply basic elements, such as footwork, hand gestures, rhythm, tempo and mood in dance sequences. CG-2, C-2.1 • Describe the classifications of dance (nṛtta and nṛtya), as well as four abhinayas and their application. CG-3, C-3.1 • Identify the dance form and correlates (nṛtta and nṛtya), abhinayas, rasa, and rhythm in the performances. CG-4, C-4.2 • Examines the four abhinayas through the work of important personalities across diverse art forms. CG-4, C-4.1
Dance as Visual Storytelling (4 hours/ 5 periods)	
2.1 Abhinaya in various dance traditions 2.2 Performing abhinaya Activity: Create performative situations or phrases applying the different abhinayas.	Students will be able to: • Discuss and compare the different types of abhinaya, and incorporate these into the creative practice. CG-3, C-3.2 • Perform movement sequences with different kinds of music and narration, and compare the experiences. CG-2, C-2.2
Cultural Connections through Dance (7.30 hours/ 9 periods)	
3.1 Indian dance cultures Activity: Learn and perform the local and regional dance forms. 3.2 Career journeys of artists Activity: Carry out a podcast and interview a performer, or visit a related institution. 3.3 Comparative analysis project on dance stories in India and Southeast Asia Create and perform a short dance performance combining element of the Southeast Asian dance forms, and discuss its similarities and differences	Students will be able to: • Interact with art professionals and find what interests them in Dance. CG-1, C-1.2 • Create a dance sequence inspired by the elements of diverse Indian and global dance forms. CG-3, C-3.1, C-3.2

Dance: A Journey from Concept to Creation (5 hours/ 6 periods)	
4.1 Choreography — rhythm and tempo, distance and space • Create and perform a short choreography incorporating concepts of space, direction, rhythm, and abhinaya. 4.2 Discuss the physical, mental and emotional well-being through movement	Students will be able to: • Contribute ideas and reflect the collaborative process of dance choreographies. CG-2, C-2.2 • Creatively use space and directions in solo and group choreographies. CG-3, C-3.1

Pedagogy or Instructional Methods

Arts Education not only develops skills and craft of making and performance, but develops broader arts appreciation and creative thinking capacities. Thus, art classes foster peer learning, encourage students to express themselves freely, exchange ideas, explore techniques in their work, and develop an appreciation of the diversity of art and aesthetics in India and the world.

Experiential Learning

The NCF-SE 2023 emphasises that art must be learnt through performing or making of artwork or performances. Rather than relying merely on explanation, theoretical concepts are learnt through activities, and students must be encouraged to apply them in their artistic expression. Students may be asked to demonstrate their creations and discuss their learning and reflections in groups. Encouraged to reflect on their experiences through regular journaling.

Collaboration

Learning is encouraged through group activities and discussions with peers. Classroom discussions of concepts, artworks and performances, and student work allow them to gain exposure to a variety of perspectives and aesthetics, and to learn to appreciate and accommodate diverse perspectives.

Interdisciplinarity

Activities have been designed by keeping in mind the meaningful connections of techniques, skills, materials across art forms and other disciplines. These activities promote learners' understanding of the linkages between the visual and performing arts, as well as other disciplines, such as Languages, Social Sciences, Sciences and Physical Education.

Emphasis on Local Culture and Resources

Teachers are encouraged to make use of local resources and local cultures in their teaching. Activities may be modified based on available resources, space

and infrastructure. While it is expected that students gain exposure to art and culture from across India and the world, it is essential that they are first made familiar with the art and traditions of their region. Workshops with local artists may provide exposure to new experiences and professions within the arts.

Effective Use of Teaching Learning Materials

Teachers are encouraged to show students relevant artworks and digital material, such as videos, photographs and audio recordings, and conduct classroom discussions and allow time for reflection. Visits to museums, heritage sites, performances, melas, etc., help students learn through exposure to art accessible in their regions.

Inclusivity

Teachers must encourage the participation of and collaboration among all students, regardless of gender, ability, or social background. Students with disabilities must be given equal opportunities and access to participate in all art activities and discussions. Teachers could modify activities to make them inclusive for all students in a class and should focus on what students with disabilities can do independently or with some guidance to empower them.

Visual Arts
Discussions • Large group discussions while introducing new concepts • Small group discussions for brainstorming and project work • Individual conversations while making an artwork • Practical activities • Exercises for core skills • Regular sketching and journaling • Theme-based projects that focus on making, completing and presenting artwork • Beyond the textbook: Alternatives and adaptations of textbook activities that can achieve competencies • Exposure visits or workshops • Visits to museums, art institutions, local art centres, melas, etc. • Interactive workshops with invited artists
Music
The five aspects in Music training incorporates: • Listening: Introduces the learner to the different forms of music, styles of rendition, and skills of musicians. Provides exposure to live Music programmes or concerts through multiple media platforms. • Responding: Imbibing different styles of singing, understanding the emotional content, copying, and also creating simultaneously is an essential tenet. • Creating: Tunes, lyrics and rendering in varied styles by combining vocal and

instrumental Music is an important aspect. This collaboration has created many styles of compositions.

- Presentation Skills: The setting of a stage, rapport with the audience, technical settings and adjustments are essential.
- Understanding the linkages of music to dance, drama, language, and also the tangible objects like heritage monuments, drawings and paintings.

Theatre

Group Activities

- Teamwork and leadership skills in planning
- Creative outputs and goals to be presented

Individual work

- Exercises for core skills
- Self-analysis and focus on individual interests
- Presentations of project works and opinions
- Exploratory activities of individual possibilities

Class Activities

- Visits to performances, meeting the cast and crew backstage
- Workshops with experienced technicians and artists
- In-class work and spontaneous project presentations
- Out of class work — meeting people, interviews, surveys

Dance and Movement

Threefold Aspect of Dance Education:

1. Seekhya (Learning or Training Methods)

- Textbook instructions are to be followed by the teacher, and theory will be taught from the textbook. Thus, the written material could be taught by any art teacher.
- Lessons modules to be provided with videos on DTLM.
- The basic pedagogy will focus on imparting the basics movements aided by concepts from dance treatises.
- Students may be encouraged to apply concepts with their imagination and creativity. For example, hand gestures can be explored with the learner building their vocabulary and language using the concept of hand gestures as a tool of communication.
- Attending workshops and lecture demonstrations will also be a component of the pedagogy.

2. Dekhya (Watching, Observing)

- The students will be encouraged to attend performances by maestros, and established exponents of Indian and global dance forms.
- Observe ritual and community dances that are part of the local culture of the region.

3. Parkhya (Contemplation, Discussion, Writing)

- Students are encouraged to research, journal and foster writing on dance.

Self-review of their dance and movement, and speaking on their personal experiences through dance will be a part of the pedagogy.
